The Power to Create

GeNetX Preset Converter for Windows® Release History

Version 1.0
Developer: Josh Kapp
Release date: 7/5/2002
Comments: Initial release, supporting GNX1, GNX2, GNX3 and Genesis 3

Version 2.0
Developer: Josh Kapp
Release date: 10/4/2004
Comments: Initial upgrade for GNX4 support and .NET application code base

Version 2.01
Developer: Josh Kapp
Release date: 10/11/2004
Comments: FIXED: Default control switch assignments were not getting set when translating presets to GNX4 format.

 Version 2.02
Developer: Josh Kapp
Release date:
Comments:
   * FIXED: Bug in the parameter enumerator was causing the first parameter in any module to be omitted from the conversion, leaving it at its default value.
   * FIXED: Preset Level and Stompbox parameters were defaulted to zero potentially causing presets with no sound.
   * FIXED: Amp EQ was disabled in GNX4 presets converted from other formats.

 Version 3.0
Developer: Josh Kapp
Release date: 1/30/2007
Comments: Added support for RP150, RP250 and RP350
