- **REPLACING MAINS FUSE**
  Switch the ON/OFF switch to the OFF position. Remove the mains lead from the connector. Use a small screwdriver to prise the fuse carrier from its location in the connector. Check the fuse and replace if necessary; also check that the voltage selection is correct for the mains supply level before switching the unit ON again.

  If the mains fuse fails repeatedly this may be because an electrical safety hazard exists. The unit must be taken out of service and referred to the Soundcraft/Spirit dealer from where the equipment was purchased.

  The wire which is coloured Blue must be connected to the terminal in the plug which is marked with the letter N.

  The wire which is coloured Brown must be connected to the terminal in the plug which is marked with the letter L.
