

M-Series BriteTouch Screen Module

The M-Series BriteTouch Screen Module is equipped with a brilliant 15.6", 4-point, multi-touch display. This is the exact same module as used on the Martin M6 console. It can be used as an external monitor for the M6. The BriteTouch Screen Module also incorporates four of the unique FastDial encoders.

15.6" LCD LED backlit screen with enhanced brightness for sunlight readability

4-point capacitive multi-touch surface

4 x FastDial encoders
