

Alien 02 Cable Extension Kit

installation note

The Cable Extension Kit is used to extend the distance between an Alien 02 luminaire and a 150W Single Base unit by 2 metres. The kit contains a power cable extension and a data cable extension. Refer to the 150W Single Base user manual (P/N 35000110) for safety information.

Warning

The Alien 02 luminaire must always be connected to the DISCHARGE LAMP OUTPUT power socket on the 150W Single Base unit. The luminaire must never be connected directly to mains supply power.
