

DJ SYSTEM APP GUIDE

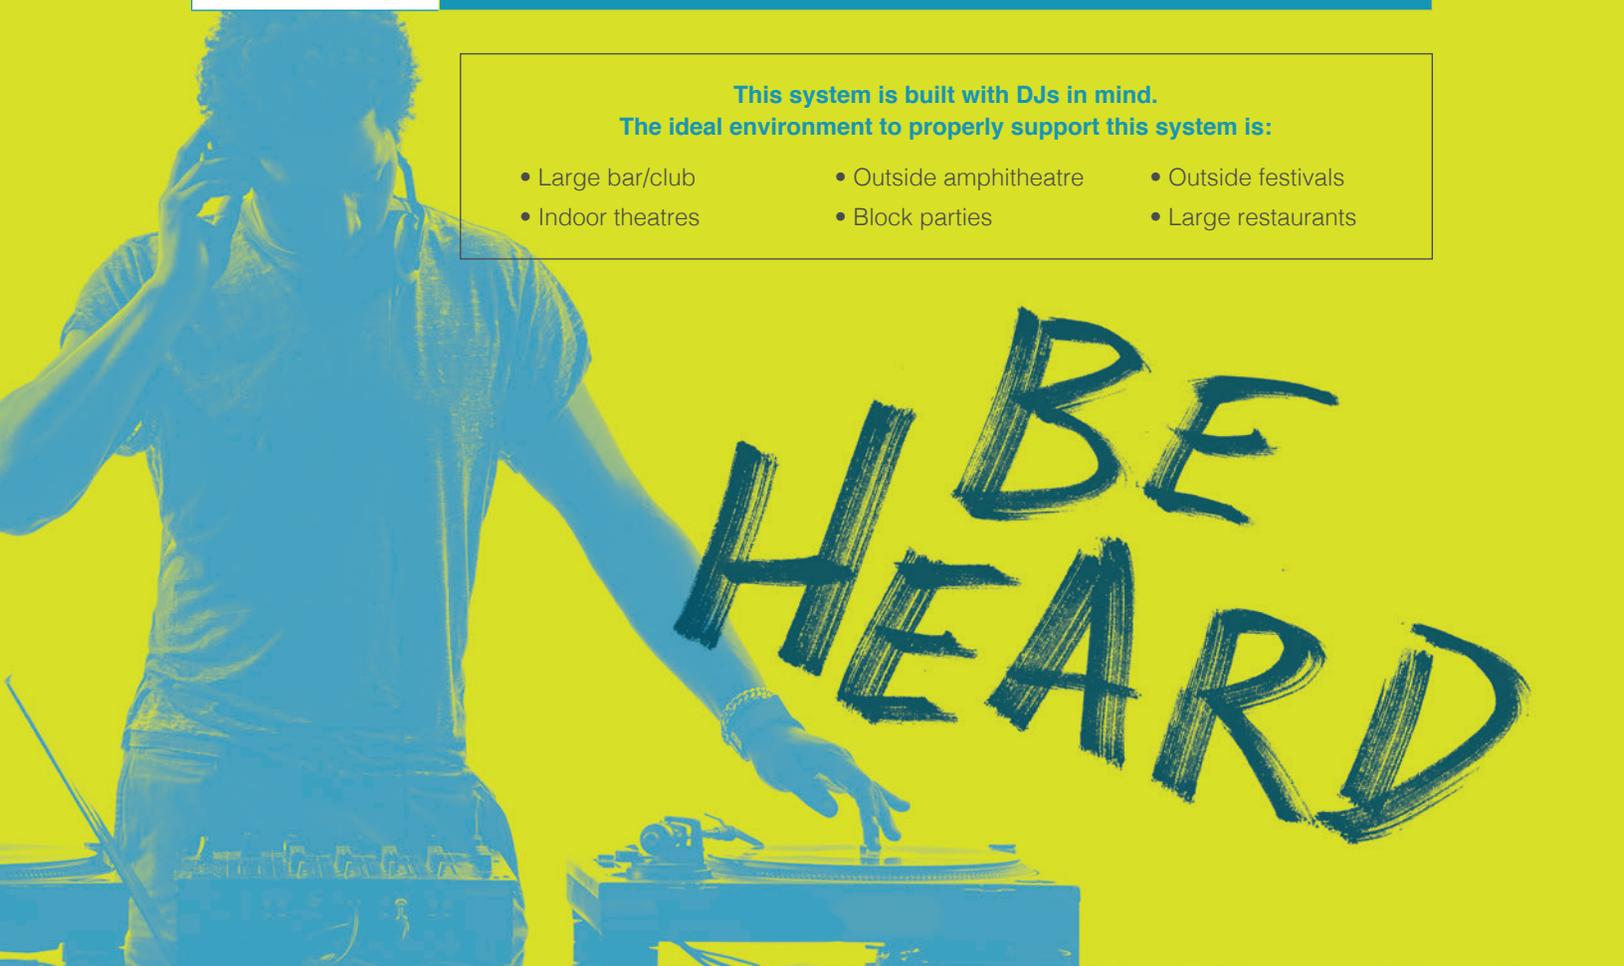

For decades DJs have been the life of the party. From the creative remixes of chart toppers to the heavy dance beats, it is hard to resist getting out of your chair and moving. DJs have become a staple at events and venues such as weddings, parties and bars. The world relies on their great song choices, smooth transitions and witty commentary between songs. Such a prominent role requires the best equipment to make the right statement.

Amplify your performance with the new Crown XLS DriveCore™ 2 amplifiers. This suggested system is perfectly matched using only HARMAN products paired with the latest and greatest Crown amplifiers. This is a professional sounding system that will give you and your set the justice you deserve. HARMAN wants to provide the full support for your musical expression and give you the proper tools you need to Be Heard.
