Overview

This guide covers the IRIS2 IR Capture Device (AMX-CAC0002). The purpose of this document is to illustrate how to set up the device in the simplest fashion. Additional documentation for this device and supporting software is available at www.amx.com.

- Instruction Manual – IREdit2

What's in the box?

- 1 IRIS2 USB IR Capture Device
- 1 Quick Start Guide

Environmental Requirements

The environmental requirements for the IRIS2 are as follows:

Operating Temperature	32° F (0° C) to 122° F (50° C)
Storage Temperature	14° F (-10° C) to 140° F (60° C)
Operating Humidity	5% to 85% RH

LED Patterns

The IRIS2 features one visible-light tri-color LED for status.

Color	Status
Blue	Capture Mode
White	Idle
Green	Code Captured
Red	Code Capture Error
Yellow	IR Transmitting

Getting Connected

The IRIS2 receives both power and data over the Type-C USB connection. The IREdit2 application is used to capture IR Codes and produce the AMX .irl files for use in AMX Control Systems. IREdit2 supports both Windows 10 and macOS. IREdit2 is available for download on www.amx.com.

Configuration

When the IRIS2 is connected to the computer running IREdit2, it will appear as a virtual COM port. In the IREdit2 application, the connection is made by choosing Settings -> Device Select from the application menu. Any attached IRIS2 devices will be listed.

Note: some USB Type-C cables are for charging only and do not pass data. If the IRIS2 does not appear, please check that the cable can pass data.
